A free confidential and impartial service for children and young people with Special Educational Needs & Disability (SEND) and their parents and carers.

Getting the help you need with SEND can be a confusing and emotional experience. The thought of working with schools, the local authority and other professionals can be daunting.

We offer the information advice and support you need to make informed decisions and play an active role in your child's education. We explain SEND processes and procedures in straight-forward language so you know what to expect and what part you can play.

Our aim is to empower and support you to work in partnership with schools and the local authority to ensure that children's needs are met.

We provide information and advice on:

- the law on SEND
- applying information to your own situation
- SEND support in early years, mainstream, special schools and post-16 institutions
- statements and education, health and care (EHC) plans and procedures
- personalisation and personal budgets
- what to do when things go wrong
- managing mediation, appeals to the first-tier tribunal (SEN and disability), exclusions and complaints
- where to go for additional support locally or nationally, including voluntary services

In addition the "Local Offer" gives information about Solihull services for young people and parents www.socialsolihull.org.uk/localoffer
